

Xda[®] Argon

An Xda device that's great for applications

Designed for...

The Xda Argon is ideal for business customers who need key services like email, browsing and data applications on one device as well as wanting to make and receive calls

A bit more detail...

- Windows Mobile™ 5.0 to view, edit and attach Microsoft Word and Excel documents. Includes a Powerpoint viewer to look at presentations
- Microsoft Direct Push Email capability – allowing customers to send and receive emails and synchronise over the air with their desktop
- Large 3.5 inch touch screen with stylus – perfect for navigating around your mobilised applications
- 2.0 mega-pixel camera – great for taking pictures and video clips
- Tri-band, WLAN & Bluetooth®.

A few great reasons to choose the Xda Argon

- Robust device – no moving parts
- Car Kit¹ options available – stay safe with hands free driving
- Optional CoPilot Sat Nav Accessory¹ (using Bluetooth GPS receiver)
- Two year warranty/guarantee

- An all in one solution – a phone and pocket PC in one
- Send and receive emails quickly and easily – your emails find you wherever you are², no need for dialling up to send/receive
- Be more responsive and productive when out and about
- Includes Bluetooth that is compatible with wireless car kits and headsets
- Full range of accessories available, including, extended batteries, adaptors, Bluetooth headsets, protective cases and keyboards, Stereo PHF headset
- In car charger and SD memory cards.
