

# The Xda<sup>®</sup> Orbit 2

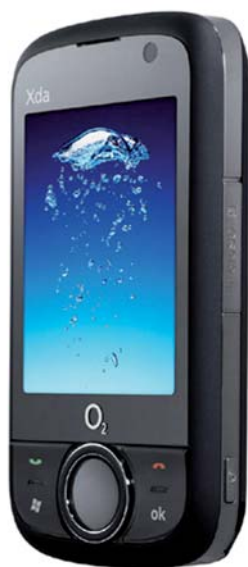

Introducing the new Xda Orbit 2. The latest addition to the Xda family is a stylish, ultra slim, lightweight 3G device with inbuilt GPS. Choose between 2 purchase options; available as standard<sup>1</sup> a pure Xda or with the feature of preloaded CoPilot 7 sat-nav software making your device ready to go.

The Xda Orbit 2 operates on the latest Microsoft software, Microsoft<sup>®</sup> Windows Mobile<sup>™</sup> 6.0. This provides you with the familiar look and feel like on your laptop or desktop and you can send and receive email in real time using Microsoft direct push email solution<sup>2</sup>. It also supports internet based email too<sup>3</sup>.

With it's 3 megapixel camera, Video capture, FM radio and MP3 player too, it's the perfect device for both business and pleasure.

## Designed for...

Customers who want an ultra stylish all round device for voice, Email access, browsing, applications and Satellite Navigation as well as a host of multimedia capabilities.

## A bit more detail

- Built-in GPS Satellite Navigation Receiver, to use with Sat Nav software solutions such as CoPilot Live 7 (can be preloaded)
- MP3 player and inbuilt FM radio with six user programmable presets, uses the headset as the aerial
- 2.8" bright touch screen, stylus and 360 degree track wheel with 4 way navigation provide easy navigation to access the Internet and browse the web
- Take pictures and shoot video through the 3.0 megapixel camera
- Supports Microsoft Direct Push Email giving you real time access to your Inbox, Calendar, Contacts and Tasks
- Front facing camera, great for video calling or conferencing
- Browse the web at fast speeds (3G/HSDPA/WLAN) in full colour
- Quad band mobile phone – connect almost anywhere in the world.

## A few great reasons to have the Xda Orbit 2

- A compact, lightweight device that looks great, you only need one device to carry around
- A range of features for both business and pleasure use
- Fully integrated GPS capabilities so no need for a separate Bluetooth<sup>®</sup> GPS receiver
- Preloaded with Microsoft Word, Excel and Powerpoint (view only) so you can create, edit (not PP) and send documents on the move
- Compatible with the latest HSDPA, 3G and WLAN networks
- Full range of accessories available, including car kits, batteries, adaptors, Bluetooth headsets, protective cases.

<sup>1</sup>CoPilot sat nav bundle available for purchase separately or with CoPilot Live 7 Sat Nav software preloaded making your device ready to take you anywhere. <sup>2</sup>Subject to your company's IT infrastructure, permissions and policies. <sup>3</sup>Subject to network coverage.

Xda is a registered trademark of the O2 group of companies. Microsoft, Windows Mobile and Outlook are either trademarks or registered trademarks of Microsoft Corporation in the United States and or other countries. Bluetooth is a trademark owned by the Bluetooth SIG, Inc.
