

Xda[®] Atmos

The Xda[®] Atmos combines style with functionality. As a 3G smartphone, its sophisticated range of features means that the ultimate mobile office experience is now available at the touch of a button.

From high-speed email connectivity and rapid file management to conferencing and desktop synchronisation, this high-end mobile device allows you to stay in touch with all aspects of your business wherever you are¹.

Designed for...

Customers who are looking for a stylish, lightweight phone, with PDA capabilities.

A bit more detail...

- Pocket-sized smartphone with Microsoft[®] Direct Push Email capability – allowing you to synchronise over the air with your desktop and send and receive emails in real-time
- Incorporates 3G and WLAN connectivity for faster internet and email delivery
- HSDPA technology for fast data transfers offering downloads as fast as 3.6MB per second
- The Xda Atmos benefits from both front and rear facing cameras, (front facing camera can be used for Video calling)
- Supports Windows Mobile[®] 6 providing easier set-up and synchronisation with Windows Vista[™] powered PC's. Plus new shortcuts available to mimic the desktop experience
- View and amend attachments using mobile versions of Microsoft Word[®], Excel[®], and PowerPoint[®] (PowerPoint view only)
- Receive, view, compose and send files in HTML format
- High quality 2.4" full colour screen designed for easy viewing when accessing the internet and browsing the web
- Key pads to suit you – two keypads for a better messaging experience, one 12 numeric keypad, and one sliding full QWERTY keyboard
- It's easy using the Xda Atmos even in poorly lit conditions with its automatic keypad light activation
- Stay in touch wherever¹ – optimum international coverage with Quad-Band GRPS/EDGE functionality.

A few great reasons to choose Xda Atmos

- Portable and stylish mobile device in exclusive Matt Black colour
