

Xda[®] Ignito

A stylish and lightweight touch-screen device supporting the latest Windows Mobile[®] 6.1 technology, the Xda Ignito incorporates all the features of a PDA with the added security of remote IT management.

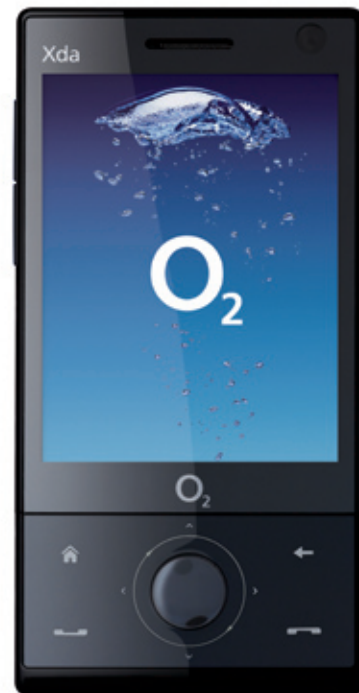

Designed for...

Business customers who want the latest in technology and style from a mobile phone. Touch-screen control, remote IT security, 4GB internal memory, optimum video viewing and enhanced Microsoft[®] direct push email¹ are just some of the key features of the Xda Ignito.

A bit more detail...

- Supports the latest Windows Mobile 6.1 technology offering:
 - Sliding panel home screen to seamlessly view notifications, calendar appointments, settings, music, photos etc.
 - Getting started centre – access help from your home screen for common tasks such as making calls, email set-up etc.
 - Threaded text messaging – view SMS texts as an ongoing conversation with contacts displayed for chat-style messaging²
 - Exchange server auto-discovery – easy set-up of customised domain email addresses under 'my personal domain'
 - Fetch mail for POP 3/IMAP – provides automatic downloads of large emails without intervention¹
 - Page overview – view entire web pages on your screen with the option to select a segment for close-up viewing
 - Zoom support – zoom into particular parts of web pages to improve readability, with 5 viewing options
- Key IT security features include over-the-air remote management and enforcement of corporate IT policy, device PIN numbers, exception lists, device lock, data deletion plus safety of installed software if a battery runs down
- Simple to use and navigate with TouchFLO™ 3D for touch-screen control
- Clear, easy to see menus displayed in 3D, with options to pan and zoom using one hand or a stylus

- Optimum viewing with an excellent quality 2.8 inch full colour, high resolution, VGA screen
- Fast internet and email delivery with 3G and WLAN connectivity¹
- HSDPA technology for the Xda Ignito delivers faster data transfers than standard 3G, with downloads up to 3.6MB per second
- Enhanced Microsoft[®] direct push email capability – allows you to send and receive emails in real-time and synchronise over the air with your desktop, as well as open and amend attachments using mobile versions of Microsoft Word[®], Excel[®]
- Receive, view, compose and send files in HTML format
- Optimum international coverage – operating on GPRS/EDGE wireless networks.

©2008 Microsoft[®] Corporation. All rights reserved. Microsoft, Excel, and Windows Mobile are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.

Available programs, features, and functionality vary by device, Windows Mobile[®] operating system version, and Exchange Server version used. Connectivity and synchronization may require separately purchased equipment and/or wireless products (e.g., WiFi card, network software, server hardware, and/or redirector software). Service plans are required for Internet, WiFi and phone access. Features and performance may vary by service provider and are subject to network limitations. See device manufacturer, service provider and/or corporate IT department for details.

Direct Push Technology requires either Windows Mobile[®] 5.0 with the Messaging and Security Feature Pack (MSFP) or Windows Mobile 6, connected with either Exchange Server 2003 Service Pack 2 or Exchange Server 2007.

A few reasons to have an Xda Ignito...

- Stylish, lightweight and ultra-slim, at only 11.5mm thick, the Xda Ignito is an extremely portable mobile device
- 3 megapixel camera with auto focus supported by 4GB of internal memory to store images
- Built in orientation sensors which automatically flip pictures to fit the screen if the device is turned on its side
- Touch screen control allowing you to drag, drop and easily send images and files
- Access to GSM location services such as Google™ maps¹
- Easy set up wizard for both work and personal use
- Familiar look and feel of Microsoft® software just like your desktop
- Access to contact details from the company's Global Address List
- Range of accessories available including car kit options, Bluetooth headsets, Stereo PHF headset and an in car charger.
