

Xda® Guide

An all-encompassing PDA providing the latest navigation, office, security and photographic technologies in an ultra-slim, easy-to-use touch-screen device. It comes with a unique car holder which automatically launches the pre-loaded CoPilot® sat nav software. The Xda® Guide provides everything from direct push email and satellite navigation to remote IT security and photographic geo-tagging.

Designed for...

Business customers who want it all – with high technology navigation, office and photographic capabilities, the Xda Guide provides real time access to emails and the internet with remote IT protection. The latest navigation and mapping systems, as well as a geo-tagging companion for your photographs. Supporting the latest Windows Mobile® 6.1 technology, this highly portable device delivers high-end specifications across all business requirements.

A bit more detail...
